

The Global Impact Mapping

The Smart Expense Tracker & Budget Planner - FinNova primarily aligns with **SDG 12 – Responsible Consumption and Production**, **SDG 8 – Decent Work and Economic Growth**. The project **helps users track income** and expenses, analyze **spending patterns through visual charts**, and **receive budget alerts** that encourage **responsible financial behavior**. By promoting **smart budgeting, controlled spending, and better savings habits**, the application supports **sustainable consumption** and improves **personal financial stability**. The system also **enhances financial literacy** by helping users make informed economic decisions using data-driven insights and modern digital technology.

The project also partially **supports other Sustainable Development Goals**. It contributes to **SDG 4 – Quality Education by educating users** about **financial planning and money management**. It partially aligns with **SDG 1–No Poverty**, helping individuals **avoid financial mismanagement** and **improve savings practices**. In addition, the use of **innovative financial technology** connects the project to **SDG 9 –industry, Innovation and Infrastructure** while providing **accessible budgeting tools** for different user groups partially supports **SDG 10 – Reduced Inequalities**.
